## Detail Summary

Title:	Copy items between Reports	Submitter:	Sirialiv
ID:	112055	Brand:	Business Analytics
State:	Open	Product family:	Business Intelligence
Status:	Uncommitted Candidate	Product:	Cognos Analytics
Submission date:	24 Oct 2017, 10:17 PM Eastern Time (ET)	Component:	Reporting and Visualizations
Prototype:	<a href="https://github.ibm.com/design_sandbox/Copyl...">https://github.ibm.com/design_sandbox/Copyl...</a>	Operating system:	Windows
Description:	In Cognos Analytics 11 you can no longer copy items (queries, pages, sections of report) between one report and another. This makes it difficult to transfer logic and/or the same information into other report. This was working in 10.2.2 and prior versions.	Industry:	Automotive
Use case:	Copy filter syntax from one reports to another.

Prototype:	<a href="https://github.ibm.com/design_sandbox/Copyite...">https://github.ibm.com/design_sandbox/Copyite...</a>	Operating system:	Windows
Description:	In Cognos Analytics 11 you can no longer copy items from one report to another (queries, pages, sections of report) because they are separate entities. This makes it difficult to transfer the same information into other report. To do this, you must manually recreate the items in the new report and prior versions.		
Use case:	Copy filter syntax from one reports to another
